COORDINARE-South Eastern NSW PHN

### Acknowledgement to Country

COORDINARE - South Eastern NSW PHN acknowledges the Traditional Owners and Custodians of the lands across which we live and work.

We pay our respects to Elders past, present and emerging, and acknowledge Aboriginal and Torres Strait Islander peoples' continuing connection - both physical and spiritual - to land, sea and sky.

### About the artwork

This artwork was painted by Walbunja woman Loretta Parsley, a Traditional Custodian of Yuin country with a strong connection to the south east coast of NSW.

The artwork is in the form of a cultural map and depicts the South Eastern NSW PHN region.

The areas in the artwork are defined by local government territories and include 12 places of significance: Wollongong, Shellharbour, Kiama, Shoalhaven, Jervis Bay, Eurobodalla, Bega Valley, Snowy/Monaro, Queanbeyan, Goulburn/ Mulwaree, Yass Valley and Upper Lachlan Shire.

### Introduction

We are pleased to unveil COORDINARE – South Eastern NSW PHN's latest Strategic Directions for 2024 – 2027, marking a significant milestone in our growth and development since our establishment in 2015.

This strategic roadmap aims to capitalise on the specialised skills and unique characteristics that COORDINARE has cultivated, leveraging our unique position in the health system to stimulate innovation and unlock new funding partners to meet the individual needs of communities throughout South Eastern NSW.

At the core of COORDINARE, is the aspiration to foster better and more equitable health outcomes for all communities in South Eastern NSW. To help achieve this, we will leverage our networks to bring the right partners together to create real, sustainable change and improvement. Alongside this, we will use the knowledge and opportunities arising from our commissioning and partnership expertise to attract new funding partners to increase our reach and effectiveness. This Strategic document represents a departure from merely listing prioritised health conditions. While our ongoing needs assessment guides that work, this document articulates our approach to collaborating with local partners and communities to address both national and local health priorities.

Anticipating the next three years, we eagerly look forward to collaborating with both current and new partners. Together, we aim to achieve enhanced health outcomes across the South Eastern NSW and continue our commitment to driving positive change and improvement in the region.

Thank you to all the consumers, community representatives, health care providers and stakeholders who have contributed to both the success of COORDINARE in the last three years and to this new Strategic Directions. We look forward to continuing to work together to improve the health and wellbeing of our local communities.

#### Health and related services

# Our Promise

#### Evidence of improved health outcomes for our communities

Communities flourish when people can access health care and are activated to manage their own health, resulting in improved outcomes and a high-quality care experience.

### **Our Priorities**

Our three objectives are the catalyst for change that drive investment. Using these as criteria, we plan the highest impact activities annually.

Virtual care

# Our Positioning

#### Networked solution broker

As a leading networked solution broker, we interact with providers and stakeholders in health and community service systems who, in turn, collectively impact individuals, families and communities in our catchment.

### **Our Value Proposition**

#### A solution broker that leverages hybrid investments

We will act as a solution broker by channelling funds to innovations and services that benefit our communities. We will work with both governments to fund core needs, and with investors to fund emerging needs and innovations.

### Our Processes

#### How we work

Insights drive each of our three primary processes, starting with understanding our communities' needs, identifying commissioning opportunities, and then gauging impact on the community.
